Portfolio: fzaky.my.id | GitHub: Kink-Jaki

## PROFESSIONAL PROFILE

Vocational high school student specializing in software engineering, web development, backend systems, databases, and mobile development. Currently undertaking an internship at ARRE TECHNOLOGY while actively developing personal full-stack projects and expanding practical experience in modern web and cross-platform technologies.

## EDUCATION

|                                                                             |                                            |
|-----------------------------------------------------------------------------|--------------------------------------------|
| <b>SMKS PGRI WLINGI</b><br><i>Vocational High School Student (Class XI)</i> | <b>Blitar, East Java</b><br>2024 – Present |
|-----------------------------------------------------------------------------|--------------------------------------------|

## EXPERIENCE

|                                                              |                                 |
|--------------------------------------------------------------|---------------------------------|
| <b>ARRE TECHNOLOGY</b><br><i>Software Development Intern</i> | <b>Remote</b><br>2026 – Present |
|--------------------------------------------------------------|---------------------------------|

- Assist in the development and maintenance of scalable web applications.
- Work collaboratively utilizing frontend, backend, and database technologies to implement system features.
- Participate in deployment workflows and continuous system integration activities.

## PERSONAL PROJECTS

|                                                                    |      |
|--------------------------------------------------------------------|------|
| <b>Campify (Equipment Rental Platform)</b><br><i>Web Developer</i> | 2026 |
|--------------------------------------------------------------------|------|

- Designed and developed a responsive landing page and user interface utilizing Bootstrap 5.
- Structured the hero section and crafted targeted marketing copy specifically for a camping and climbing gear rental business.
- Created project branding and logo to establish a cohesive visual identity.

|                                                                                        |      |
|----------------------------------------------------------------------------------------|------|
| <b>KataKita (Blog &amp; Article Management Web App)</b><br><i>Full-Stack Developer</i> | 2026 |
|----------------------------------------------------------------------------------------|------|

- Built secure login, registration, and article editing interfaces tailored for content creators.
- Implemented a custom black and yellow aesthetic theme and optimized the UI for a streamlined user experience.
